

MERRILL High School

*Success with BlocDoc for
the past 5 years!*

**"It is a cool
invention and
other schools
that compete at
indoor
invitationals
really like it."**

After 5 years of using the BlocDoc system, our kids have felt that it is more beneficial and time saving in the long run than finding a teammate to stand on the block and risking a fall or slip out of them. It is a cool invention and other schools that compete at indoor invitationals really like it. The BlocDoc is simple to set up for a four lane and easy to move around after a race. We also use it for year round for open gyms to give kids extra work on their starts.

The Merrill Track Team believes that our starts have improved due to this fantastic indoor product sold by USA Track Stuff. We are able to get more quality reps during practice which produces greater confidence in our athletes.
